Dear Sir/Madam

Phase 1 Heritage Impact Assessment for the proposed construction and maintenance of the Rand Water 3km Q6 with a diameter of 1400mm from Rand Water Eikenhof Pump Station to Meredale Reservoir and a 4.6km X 1400mm G38 Pipeline from Meredale to Barangwanath, as part of the Inlet and Outlet Pipes and its associated infrastructure, Gauteng Province

1. The above-mentioned matter was discussed by the PHRA-G Heritage Impact Assessment (HIA) Committee on Friday, 25 November 2016.
2. After reviewing your application, the Committee has made the following recommendations:
 - a) It was noted that there are some archaeological and graves issues on the property or properties earmarked for the proposed project.
 - b) Please contact the South African Heritage Resources Agency (SAHRA), its Burial Grounds and Graves (BGG) Unit; and the Archaeological and Paleontological Unit at 021 462 4502.
 - c) This is due to the fact that PHRA-G does not have any jurisdiction on archaeological and graves matters.
 - d) SAHRA should therefore give the final comment.

Kind Regards

Tebogo Molokomme

For the Heritage Impact Assessment (HIA) Committee
